21st August 2025

Dear Hiring Manager,

I am writing to express my interest in a full-time position within your organization, beginning January 2026, in the fields of data analytics, software engineering, data management or any related fields. As a final-year Computer Science student at Universiti Teknologi PETRONAS majoring in Data Analytics, I am eager to apply my technical skills, problem-solving abilities, and hands-on project experience to contribute meaningfully to your team.

During my internship at PETRONAS Carigali (PMA), I developed and deployed an interactive Power BI dashboard that streamlined compliance tracking across multiple sites. By automating data processes with Power Automate, I significantly reduced manual errors and improved efficiency, an experience that sharpened both my technical expertise and my ability to deliver practical, business-driven solutions.

Beyond professional experience, I have pursued impactful projects that reflect my passion for innovation. My Final Year Project, Easy Parcel, involves designing an IoT-based smart parcel locker system with mobile integration, enhancing convenience and security for university residential villages. Additionally, as the CFO of COSafer, a technopreneurship project, I not only co-developed a working CO detection prototype but also led the financial planning and market feasibility analysis, balancing technical development with real-world viability.

I am equally passionate about teamwork and leadership. Through STEM outreach initiatives and representing UTP in basketball, I have built commitment, teamwork, and resilience, which I consider equally important as technical skills.

I am excited by the prospect of contributing to your organization and believe my blend of technical proficiency, analytical mindset, and leadership experience makes me a strong fit. I would greatly welcome the opportunity to discuss how my skills and experiences can support your team's goals.

Thank you for your time and consideration. I look forward to the possibility of an interview.

Sincerely,

Muhammad Afiq bin Zakaria
